FOOD

THE LOCAL BARK SELECTIONS

The Local Bark will provide a choice of high-quality dry dog foods. Contact us for our current food choices.

PERSONAL FOOD

You are welcome to provide your dog's own diet for his or her stay, and you are encouraged to do so if your dog has a sensitive stomach.

FEEDING SCHEDULE

The Local Bark provides two feedings per day: early morning and late afternoon. Owners may specify if only one feeding is preferred. The Local Bark can provide additional meals, however additional charges may apply.

PLAYCARE

TEMPERAMENT TEST

All dogs must pass a temperament test in order to take part in socialization with other dogs in our Playcare Program. Dogs will be assigned an appropriate play group based on size, age and activity level. The Local Bark staff will do their best to maintain appropriate levels of play. Any intimidation between dogs will be interrupted. Methods of interruption may include, but are not limited to use of spray bottles, fog horn, or dog-safe animal deterrent sprays.

INTACT MALES AND UNSPAYED FEMALES

Intact males or unspayed females over the age of 10 months will not be allowed to socialize in playgroups, as their hormone levels will more likely increase arousal levels between dogs.

MEDICATIONS

The Local Bark is happy to administer topical or oral medications during your dog's stay. We do not, however, administer injections. Please be sure all medications are clearly labeled with instructions for administration.

ROOMS

SIZE AND WEIGHT TO DETERMINE ROOM SIZE

The Local Bark offers several different room sizes. Although there are no definitive size restrictions, your dog's comfort is our priority. Guests should be able to stand up and comfortably move around in your selected room.

ROOMMATES

For more than one guest from the same family, The Local Bark allows dogs to share a room. All dogs in the same room should appear comfortable in the space provided for them.
